Rt. 12, Frederick, Md. 21701
9/17/75

Dear Mr. R.C.White,

Thanks for your letter of the 10th.

Enclosed is one of our flyers.

World Field Research is unknown to me.

I have done some but not much work on the RFK assassination.

If you can think of why you would be singled out for an opinion on RFK in Canada that could be interesting.

Many Canadians are concerned about the American political assassinations. But none of the many there and here who have written to me have mentioned receiving any such inquiry.

If it may well mean nothing, I'll keep this on file. Perhaps something relevant will show up later.

There are legitimate organization that do receive offbeat requests from clients with special interests.

And, of course, there are seemingly legitimate businesses that do have unseen connections.

If on the face of it there seems to be nothing sinister about this, I will have it and will remember if anything like it shows up.

Many thanks,
